To whom it may concern,

I am writing in support of Phoenix Philosophies Inc, for there non-profit venture within the City of Syracuse.

Phoenix Philosophies Inc. will rehabilitate vacant tax delinquent properties within the City and provide decent affordable housing to homeless members of our Community. This is a perfect collaboration of private and public funding sources to provide housing to our most needy residents.

I urge all members of the Central New York Community to support this new non profit venture. If you have any questions or concerns, please feel free to contact my office.

Respectfully,
